

Dear Ayalik Fund,

I don't exactly know how to start this, but here I go. I had a wonderful time on this great trip. I love experiencing new cultures. I can't thank you enough for giving me this opportunity. I know that not everyone gets this opportunity for people up north. This was a once in a lifetime opportunity for people up north. I appreciate you for giving this chance to learn new experiences.

I can't believe I got to explore Toronto. It was amazing. My favourite part is when I went to the Hockey Hall of Fame. I thought it was beautiful because I love playing hockey. It's my ultimate favourite sport.

During this trip, I learned about portaging. Which is a great way to step up in physical fitness. I gained a lot of muscle from all that portaging.

My newest skill is canoeing. Not a lot of people canoe up north. So this great learning how to canoe. I also came way out of comfort zone to cooperate with everyone. I got to meet great people.

My biggest challenge I'd have to say was that two thousand one hundred fifty meter portage. At first I was thinking to myself, "How are we going to get this done?" but I didn't have much faith in everyone.

My biggest success was finishing that two thousand one hundred fifty meter portage. I was so relieved when that last canoe reached the end.

The most funny story about the trip, was everyone's goofy stories. They had so many funny stories, but I can't just choose one. I love everyone's personality. They bring me so much happiness.

During this great trip I'm taking away canoeing from this experience. I never knew how, but I always wanted to. I'd like to thank these awesome instructors for teaching me how to canoe.

If it weren't for you Ayalik Fung, I wouldn't get to meet these wonderful people, I wouldn't even be able to do this course also. This course made me a different person. I appreciate you for giving me this opportunity. I can't thank you enough for giving me this chance. This was a once in a lifetime opportunity for people up north. So thank you once again.

People like you remind me that God done good. Because not everyone is ~~so~~ kind and caring like you. So I appreciate you so much for giving me this opport. You're such great people. I'm very thankful of you.

Sincerely, Annie
